

SIZE YOUR FINGER

Use a quarter to make sure you printed the page to the actual size.

The quarter will align if the page is printed to size.

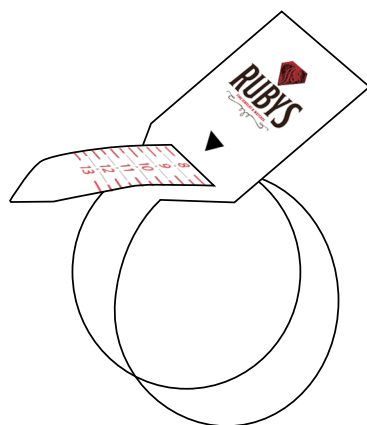

1 PRINTABLE FINGER SIZER

After you cut out the Ring Sizer, cut a small slit on the dotted slot line.

Place around your finger. Insert the Tab into the slit.

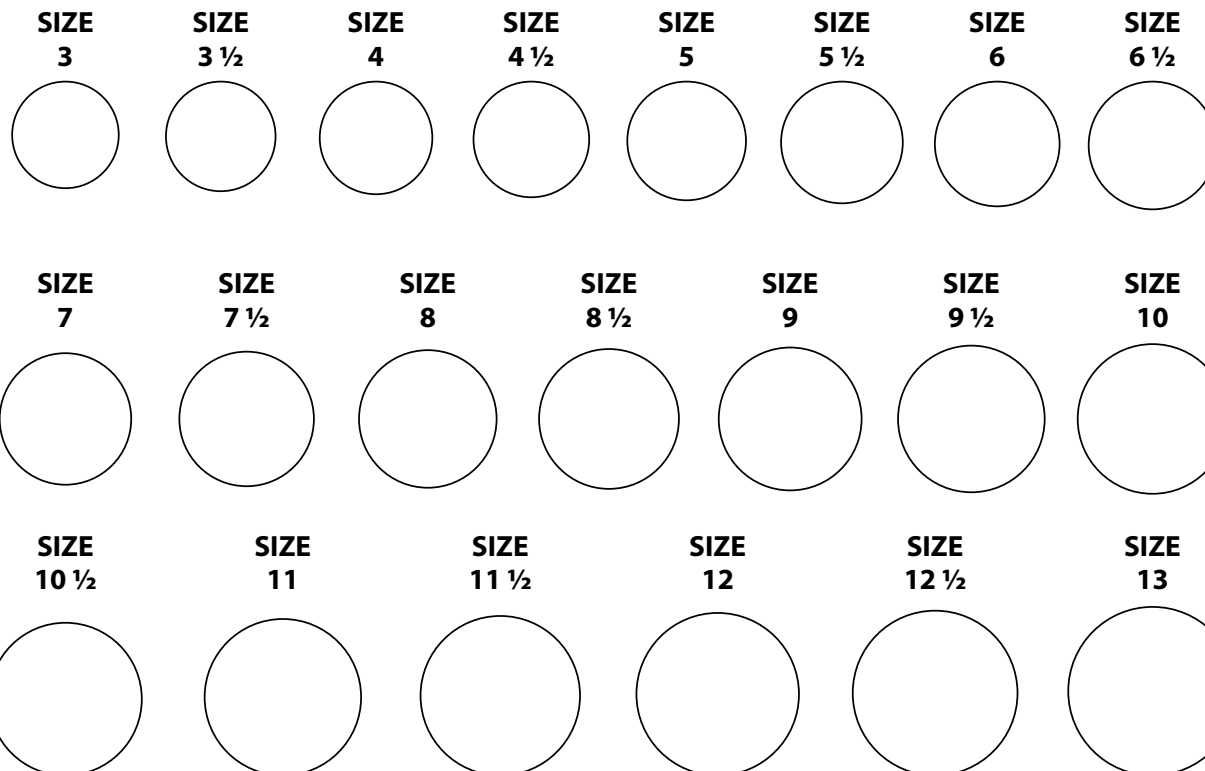

Tighten the Ring Sizer by pulling the tab toward your finger. Should be snug, but comfortable.

2 PRINTABLE RING SIZER

If you have an existing ring available, align the ring with one of the circles below. Use the inside of the shank to measure.

3 PRINTABLE STRING SIZER

- 1) Wrap a string around your finger exactly one time
- 2) Using a marker, find the length and mark off where it meets
- 3) Mark string with marker and measure circumference
